Amirreza Taqavi

Filmmaker | Producer

Dubai, United Arab Emirates

Summary

I've been passionate about video production since I was a kid. I started making films at 11 and animation professionally at 15. By 2022, I had produced over 9900 minutes of video, including animation, TV programs, and promotional teasers.

I'm currently a photography student at Azad University Central Tehran Branch, and I have over 50 domestic and international projects under my belt.

I'm a highly skilled and experienced video producer with a passion for storytelling. I'm always looking for new and innovative ways to tell stories through video, and I'm excited to collaborate with others to create amazing content.
